

BOW VALLEY RESOURCE

Including Arrowwood, Milo, Queenstown, Shoultice and Mossleigh

Volume 2, No. 21

ARROWWOOD, ALTA., JANUARY 12, 1933

Subscription \$2.00, U.S.A. \$2.50

Annual Meeting of Arrowwood Ratepayers Feb. 6th

A meeting of the Arrowwood Council was held on January 4th, with all members present. The minutes of the meeting December 7th were read and on motion by Lewendon were adopted as read.

The correspondence of the past month consisted of letters from the Salvation Army and the Red Cross Society, thanking the Village for their donations.

The following accounts were presented and ordered to be paid:

Old Age Pensions Dept. \$20.00
T. S. Board, salary, ink and stamps 13.75
Revelstoke Sawmill Co. coal for fuel at firehall 8.25
R. R. Saunders, flowers 3.50
Moved by Lewendon that the Secretary act as Returning Officer and to post notices for the annual ratepayer meeting to be held in the Ingraham building on Monday, Feb. 6th, at 7 p.m.

Moved by Beagle that the Annual Auditor's Report be published in the Bow Valley Resource as soon as possible, after its arrival from the auditor.

Moved by Lewendon that the meeting adjourn.

Alberta Entries for Regina

Alberta's first entrant in the world grain contest which is to be held at Regina next summer is Harold Moore of Blind-Iow, who is to show a sample of the created wheat grass he has been developing during the past few years, and which has bright prospects as a crop for restoration of the ranges. Other entries already made include one of two-rowed barley from Norman Peck of Leduc, and entries from Haddington Bros. of Lethbridge, in wheat. Entries for Regina close January 31. It is anticipated that there will be some 200 entries from Alberta. The provincial department of agriculture has agreed to pay half the entry fee on approved exhibits from the province. The full entry fees are \$3.00 in classes with more than \$2,400 to \$6,500 in prize money and \$1.50 in the lower classes.

U.F.W.A. Meets at Home of Mrs. Milton Henry

The U.F.W.A. met at the home of Mrs. Milton Henry on Tuesday, January 10th, twenty members being present.

The meeting opened by singing; the minutes were then read and approved. \$14.00 was reported as the proceeds of the dance held at Shoultice on Jan. 20th.

Arrangements are being made for a Turkey Supper, the date to be announced later.

Resolutions for the coming conventions were read and voted on, after which the hostess served a lovely lunch.

Canadian Pacific Railway Ogden shops re-opened Monday morning after having been closed down for about three weeks, and approximately 900 men resumed their regular work in the locomotive and car repair shops. They will remain open indefinitely.

Hockey Notes

Mossleigh 2-Bassano 0

The second game to be played on Arrowwood ice this season occurred Friday night last when Bassano met the Mossleigh rink. From the face-off the game was full of action with Bassano handing out many severe body checks. The first period was about half over when Roy Leslie gained possession of the puck near the Bassano goal and he bulged the hemp for the first counter. In the middle frame McCullough scored for Mossleigh when the visiting goalie was caught unprepared. Bassano tried hard to prevent a shut-out but Donald Hansen made many a spectacular save in the Mossleigh fort.

Mossleigh-Hansen, D. McCollman, F. McCollman, R. Leslie, J. Leslie, H. Leslie, McCullough, Beagle, Christie, Elkins, McIrvine-Jack MacLeod.

Langdon 4-Arrowwood 1

The return fixture at Langdon Saturday night last resulted in a victory for the northern club once again. Playing on a poorly lighted rink the local boys were under considerable difficulty and Sharpe in the goal had very little chance on several occasions. Francis Mason scored the Arrowwood goal on a pretty shot from the left wing. Jack MacLeod and Ernie Norton made many flashy solo rushes while Clarence Norton, playing his first game for the Seniors, displayed skillful stick handling on several occasions. The Langdon team had better flush than the local boys and playing on home ice were playing good hockey.

Mossleigh 4-Bassano 5

The return match at Bassano Wednesday night was an interesting battle from beginning to end. The Bassano Bears built up an early lead of 4 goals but this margin was cut down when J. Leslie scored in the first period for Mossleigh, then twice in the third period. Roy Leslie also scored, making the game a tie. In the overtime period the winning goal came in the second half and there was a dispute as to whether it was kicked in or not, but the referee allowed it. Play was about evenly divided between the two clubs, with Mossleigh failing to score at several opportune times.

Mossleigh-Hansen, F. and D. McCollman, R. J. and H. Leslie, Elkins, Christie and McCullough.

Something like 4,000,000 lbs. of turkeys were marketed in the province during the past year according to the provincial poultry commissioner. About 125 carloads were shipped out to eastern and western markets.

The Arrowwood

Bonspiel Away To Good Start

Play Started Yesterday With Twenty Rinks Entered

The Fifth Annual Bonspiel of the Arrowwood Curling Club opened Wednesday morning with the following rink entry: Gleichen 4 rinks, High River 2, Milo 1, Queenstown 1, and 12 from Arrowwood.

Play commenced at 9 o'clock good ice but the mild temperature and dust caused some concern during the day, however the weather tightened up and the wind dropped towards evening and the ice is in good condition again.

Following are the results of the games contested on Wednesday:

Grand Challenge
Miller beat E. Norton
Bell beat Hursh

Merchants
Jack Beagle beat McIrvine
Hursh beat High River No. 1
Bell beat High River No. 2
Beach (Gleichen) beat Miller
Hales beat P. Norton.
J. Beagle beat Asselstine of Queenstown

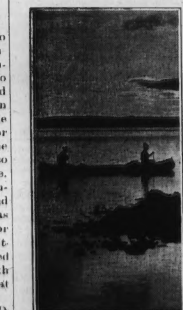

Auto Licenses in Alberta

The total issue of auto licenses in Alberta for 1932 was 85,565, a decrease of 8,511 from 1931. Of the total, 71,433 were for passenger cars and 14,232 for trucks and other licenses. The peak year for licenses was 1930 when the total passed the 100,000 mark.

During 1932 there was a substantial decrease in accidents among workers in the province, according to the provincial workmans compensation board. The figure for 1932 is 8,974 compared with 10,050 for the previous year. Greater care and improved methods in industry caused the decrease.

Canoe Trips in Canada

Lakes and Rivers Provide Numerous Attractions
Opportunities for an Enjoyable Vacation Almost Unlimited

Requirements for a successful and satisfactory trip by canoe: suitable water, picturesque country and an excellent manner of canoeing can be found almost anywhere in Canada. The numerous lakes and rivers make the choice of trips almost unlimited. One can travel for hundreds of miles as any of the great rivers, journeying from lake to lake and portaging where rapids impede a boatman's way. Starting decided upon the

Shoultice Waves

There will be a dance in Shoultice, December 13th.

Due to the time taken in preparation for the Christmas Concert, the Shoultice Xmas examinations were postponed until the latter part of January.

Social evening in Shoultice Community Hall on Saturday, January 21st. Cards and dancing. Gents (including supper) 25c, ladies free. Everybody welcome.

A Depression Tip
"Always borrow money from a pessimist, he never expects to get it back anyway."

A ratepayers' meeting of the Shoultice School District will be held Saturday, January 14th, at the school at 2 p.m.

Does it mean an early spring? One of the pupils of Shoultice school reports seeing a snowdrift on the morning of Jan. 9.

Don't Worry If You Are Not Great
A lap dog is not as large as an elephant and never was intended to be.

Joint stock companies organized in the province were recorded during 1932 totalled 127, compared with 179 previous year.

Decrease in honey production in the province was recorded last year which was not a favorable year for the crop. The total production was 550,000 lbs., compared with 915,000 lbs. for the previous year.

Irwin Scott returned last Thursday from Lomond where he had been visiting with relatives.

A number of people of the Arrowwood district drove to Dinton Hall on Tuesday evening to hear Mr. Coote deliver an address.

Kind of trip to be made, whether one requiring much effort and expenditure, or one quite free from rapids and portages, the canoeist has only to select his route.

Easy of Access
Although railways and the automobile have provided a means of rapid transport, they are conspicuous places in the quiet of the forest, out of reach of either. It is such places, approachable only by canoe, that invite the adventurer to partake of the wonders of nature.

The railways and the development of good roads have however made the majority of canoe routes in Canada easily accessible, and one need not travel far from the majority of Canadian cities before reaching that sparkling point of an enjoyable trip.

Forest Beauty
In certain parts one may follow the stream for a long number of miles and never see a village or dwelling, yet civilization lies close that return is easily possible. Waterfalls, rapids and small lakes of singular beauty hidden deep in the forest, and islands covered with pine and spruce trees, are among the interesting features encountered on a canoe trip.

There is a remarkable contrast between the conventionalities of modern life and the full naturalness of life in the great forest, where one may relax the routine of the material world. A strange appeal of imagination comes to one while following the route of the historic explorers and canoeists previous

(Continued on page 4)

Local and Personal

DON'T FORGET the Turkey Supper Tonight.

Mr. D. J. Beagle was a Calgary visitor Monday.

Mr. Chester Beagle was a Calgary visitor Tuesday.

Mr. and Mrs. Forman of Calgary spent last week with their daughter, Mrs. M. Ward.

The Guild meets this afternoon at the home of Mrs. G. Jones.

Born-To Mr. and Mrs. W. Steiner, on Tuesday, January 10th, a daughter.

The P.T.A. are contemplating putting on a dance in the near future.

Irwin Scott returned last Thursday from a visit with relatives at Lomond.

Mrs. E. Sawyer of Carleton Place spent Saturday with Mrs. Rainville.

Mrs. Rainville is able to be out again after being confined to her bed for the past ten days with an attack of the flu.

Nurse Davidson will be in Arrowwood on Friday and will conduct a **Baby Clinic** in the Church of the Brethren at 2 p.m.

The Arrowwood boys expect to play the Deerfoot Indians Saturday night at the local rink.

Mrs. N. Nissen returned on Monday from Calgary after undergoing an operation in the General Hospital.

The P.T.A. bridge drive which took place in Hornings' Hotel last Friday evening was well attended and afforded a very pleasant evening.

A dance will be held in the Community Hall, Shoultice on Friday night, Jan. 13th. Gents 50 cents Ladies free.

Master Larry Mackie returned to his home at Carleton last Sunday after visiting his grandparents.

Social Evening, Shoultice Saturday, Jan. 21st. Cards and dancing. Gents (including supper) 25 cents. Ladies free. Everybody welcome.

Mrs. Leonard of Los Angeles arrived in Arrowwood on Monday night on an extended visit at the home of her son Mr. M. R. Leonard.

Mr. T. Kelly left this morning for Calgary and expects to return this evening with Mrs. Kelly who underwent an operation in the Holy Cross Hospital last week.

At the annual meeting of the ratepayers of the Arrowwood Consolidated School District held last Saturday, the new trustees elected were: Mr. J. Hewketh and Mr. J. Webb. Owing to an insufficient number of ratepayers being present, it was necessary to postpone the election of the third trustee.

P.T.A. Meets at the Home of Mrs. R. E. Hales

The P.T.A. met at the home of Mrs. R. E. Hales last Monday evening when fifteen members were present.

A report showed that the sum of \$11.00 was taken in at the bridge drive held last Friday evening. Expenses were as follows:

Rent of Hotel \$2.00
Prizes 1.40
Bridge Scores80
\$4.20

It was decided that the P.T.A. accept the offer to serve hot dogs and coffee at the bonspiel. Mrs. Wein gave a short reading from the School Act and Mrs. MacLeod gave a paper entitled "Big Problems for Little People."

A spelling match was then held. After considerable discussion it was decided that the P.T.A. appoint a committee to assist, both parent and teacher in solving school problems, in the nature of grievances in general and conditions. This committee consists of Mrs. R. E. Hales and Mr. H. McCullough. Both parent and teacher are free to discuss with either one of said committee.

The next meeting will be held at the home of Mr. J. Hewketh on Feb. 13th at 8 p.m.

Turkey Supper Tonight

The Arrowwood Curling Club's Annual Turkey Supper takes place tonight (Thursday) The supper will be served from 6 to 8 o'clock in the basement of the Church of the Brethren. Adults 40 cents each, children under 15 years, 20c. There will be two lucky tickets and the holders will each receive a prize.

The Leader for Forty Years

"Fresh from the Gardens"

Opportunity Knocks-In 1933.

Another year has gone, carrying with it into the limbo of the past an awful load of trouble, difficulties, losses and grief, but leaving behind a residue of problems to be carried into, and we trust to be to a very large extent, solved in the new year. We can well afford to bid a lasting good-bye to all the unpleasantness and worries of the old year, holding on only to those lessons which have come to us out of the experiences of the past.

Our faces are now set to the future; our thoughts and our planning should be of it and for it. A calendar for 1933 hangs on the wall before us as we write. Three hundred and sixty-five days! What are we going to make of them? What are we going to do with them?

Conditions, happenings, circumstances altogether beyond our power to control, will, of course, affect the true course of our lives. These we must meet as they come. It has ever been so. It will continue to be true. In this age it is perhaps true to a greater extent than ever before, because man, through his own God-given genius has brought the whole world, and world influences, more closely into our individual lives. But, even so, the fact remains that, as individuals, we still remain the greatest factor in the making or marring of our lives. We will start the new year right if we remember this great truth.

So, what are we to do with and make of the year 1933? Are we entering it in a spirit of hopefulness and despair, sensing failure at the end? Or are we embracing it with gladness as presenting a new opportunity, a new hope, animated by a new confidence that substantial measure of success will reward our efforts in the direction of individual, national and world betterment?

And we bowed down by a fatalistic idea that nothing could be worse than what is, and therefore recklessly prepared to go to any length in the adoption of any measure advanced as a remedy no matter how desperate it may be? Or do we still retain confidence in ourselves, in our abilities and power to remedy the mistakes of the past, banish the evils, right the wrongs, and apply our individual intelligence and energies to the solution of the problems now confronting us?

In this new year it will not be so much existing institutions, political and economic, that will be on trial, as it will be ourselves, who are and I as individuals, citizens of a great Dominion, of a greater Commonwealth of Nations, of a still greater world. These institutions have developed weaknesses—that is universal, and in ourselves, in our abilities and power to effect. But these weaknesses can only be overcome, these reforms brought about, by us, first, as individuals, and secondly as individuals working co-operatively together.

The errors resulting in present difficulties are man-made errors; it is the human factor that has failed to function properly, rather than the systems and machines. And it is the human factor, that is, you and I individually and collectively, who are mainly at fault. It is in ourselves, in our way and manner of thinking and living, in our ambitions, in our weaknesses, in our development; it is in ourselves that reform is most urgently needed. It is upon us that the responsibility rests to so direct systems and govern machines that they will work and not be thrown out of gear.

The errors resulting in present difficulties are man-made errors; it is the human factor that has failed to function properly, rather than the systems and machines. And it is the human factor, that is, you and I individually and collectively, who are mainly at fault. It is in ourselves, in our way and manner of thinking and living, in our ambitions, in our weaknesses, in our development; it is in ourselves that reform is most urgently needed. It is upon us that the responsibility rests to so direct systems and govern machines that they will work and not be thrown out of gear.

This thought brings us back to our original question: What are we going to do with the 365 new days now presented to us? Are we going to grasp them, bend them to our will, make every minute of every one of them work to our individual and mutual advantage? Or are we about to throw up our hands in despair, and say: "What is the use? Are we going to fight a gallant battle, or ignominiously surrender and admit defeat? Are we to deny our God-given intellects and powers, our dearly bought birthright of individual liberty and freedom, and be content to forego our responsibilities and become mere cogs in a machine?"

Rather, does not this new year beckon us to a reassertion of our individuality, to a new application of our powers to our own problems? As we look back for a moment over the past years, can we not discover that we enjoyed the greatest happiness, obtained a greater self-respect, yes, felt a greater satisfaction in life and reaped a richer reward therefrom, when we fought our own battles and relied upon our own efforts and in these later years when so many have depended upon others to help them rather than made an extra effort to help themselves? Did we not feel more free when we shouldered our own burdens, and gave a lift to others more heavily burdened than ourselves, than we possibly can feel in giving up the fight, and shifting our burdens on to others, even though the "others" be the community and nation?

Canadians are a self-reliant people. They have fought a good fight during the past three years of depression. It has been a hard fight, a fight against heavy odds, and, in many respects, against factors beyond our own control, and the battle is not yet ended. But it will end, and end in victory if we do not weaken. Factors undreamed of a few years ago are coming up as reinforcements because the depression has taught the world lessons it would never have learned in years of prosperity. These lessons are along constructive lines; not the destructive proposals which always are advanced when people are perplexed and in trouble. This new year can carry us along the road to victory if we use it right. And the right way to use it is to apply our individual intelligence and energies to the solution of the problems that we face, and not give heed to the killing, Jeremiah of despair.

Television Across the Sea

A successful television transmission from London to Copenhagen, Denmark, was made recently. The reception was on a screen, of about three by nine feet, in a Copenhagen theatre. The pictures and voices were picked up by the Westfront Wireless Station and transmitted by land lines to Copenhagen.

Imports of American raw cotton into China are expected to increase within the next year.

Liner Was Taxed

When Brundage and Hans von Drosow, of Germany, recently resented space on a liner at Hamburg it was a very large reward for one steamer. One liner is seven feet tall and the other is more than six feet. Special beds had to be provided. The two travelled as giants with a circus.

Russia's lumber production in the first nine months of 1932 was far below the annual plan.

Nervous—Could Not Sleep Tired Out All The Time

Mrs. George Berliner, Nauyasburg, N.B., writes:—"I was so very nervous I could not sleep at night, and felt tired out all the time. A physician told me about Milburn's Heart and Nerve Pills, and as she was using them at the time she gave me some to try. I found they were able to make me sleep, and they proved of wonderful help to me."

For sale at all drug and general stores; put up only by The W. Milburn Co., Ltd.

Investigate Cosmic Rays

Prof. Piccard Plans Balloon Ascent in Hudson Bay Area

Plans for balloon ascensions in Belgium next summer and in northern Canada in 1934 have been announced by Prof. Auguste Piccard, who has made the farthest trip from the earth on record.

It was not certain whether he himself would participate in the flights. Prof. Piccard plans to sail in the near future for Canada where he will study possibilities of an ascension in the vicinity of the north magnetic pole on Boothia peninsula in the Canadian Arctic.

A new ascension, Prof. Piccard was necessary to clear the question of whether cosmic rays originate from stars or galactic nuclei.

If the former be true, he said, the secondary "soft" rays deviated by the earth's magnetic field ought to be detected at high altitudes. The magnetic pole in the Hudson Bay region.

He said that the power of the cosmic rays was such that previous to their striking the atmosphere, a drop of water under their influence would be able to yield sufficient electricity to power New York with several hours of light.

Works On a System

French Statesman Always Organizes Time To The Minute

M. Herriot, who is much in the public eye just now, is a recently described by the News of the World as easily the most picturesque figure in French politics today. Short and stout, with a small, round face and heavy, dark eyebrows, he is as active as a schoolboy, and has a schoolboy's high spirits. He is also one of the very few French statesmen who are devoted to pipe-smoking. He was the son of a widowed mother in poor circumstances, and by dint of industry he became a professor of history and literature at one of the universities. He is still a prodigious reader, and has written many books on politics, music, and literature.

When asked how he has managed to indulge his literary leanings in addition to his official duties, he has been Mayor of Lyons for 25 years—he says, "It is just system." He organizes his time, and his duties, and his pleasures, and his work at Lyons that brought him his first Government appointment—that of Director of Revitalizing during the war—and then he has never been far from the centre of French politics.

Cannot Be Duplicated

Valuable Mah Jong Set Belonged To Chinese Governor

Efrem Zimbalist, violinist, has returned to New York from the Orient with what he believes is the most superb mah jong set in existence. This object, which was recently in the recent excavations-sections of the museum in the Zimbalist residence. The mah jong set belonged to the Governor of Shanghai and the mah jong with which the violinist bought it helped to pay for the Governor's funeral. It was sold to him when he was needed for the elegant funeral necessary for such a dignitary. Every piece in the set is of an extremely beautiful type of agate, in each piece the proper figures are carved and the indentations are inlaid with precious stones. The color scheme is dazzling. The violinist understands that his mah jong set is perhaps 300 years old and that it cannot be duplicated.

Patronize New Highway

Thousands of Cars From West Travel To Kenora, Ont. The opening of the inter-provincial highway between Ontario and Manitoba, brought a tremendous volume of new tourist business to Kenora, the official count showing that from June 1 to October 31, fifteen thousand eight hundred and ten cars came from the west, and from November 1 to 20, when traffic then tapered off, the number was increased to 15,000. And, in two years, making a grand total of sixteen thousand four hundred and thirty-four or approximately fifty-seven thousand five hundred and nineteen tourists.

Really Quite Simple

The splitting of the atom is quite simple when explained by Lord Rutherford. The passage of the invisible neutron into the nucleus of the atom, said he, is like an invisible man passing through a closed door. His path can be traced only by the people he has pushed aside.

After a long idleness several nitrate plants in Chile are resuming.

MAY BECOME PREMIER

Mr. J. E. Brownlee of Alberta is appointed a member of the Canadian Tariff Commission.

It is reported that Robert Gardiner, M.P. (above), Progressive Leader in the House of Commons, will retire to accept the Premiership of the Western Province.

Mr. J. E. Brownlee of Alberta is appointed a member of the Canadian Tariff Commission. It is reported that Robert Gardiner, M.P. (above), Progressive Leader in the House of Commons, will retire to accept the Premiership of the Western Province.

It would be issued in the form of currency, like the paper money now in use, and would end depressions because it would always purchase approximately the same amount of goods, said Dr. John Pease Norton, economist.

The "electric dollar" would be valued in terms of kilowatt hours, the unit by which electricity is measured, and which Dr. Norton said are the same in quality and quantity everywhere in the United States.

Gold currency would continue to exist and would fluctuate in value with reference to the electric dollar, just as foreign currency now fluctuates with reference to United States gold currency.

New Comes "Electric Dollar"

Scientists Have Idea To Do Away With Depressions

A new kind of money, the "electric dollar," with its value based on electrical energy instead of gold, was proposed as one way to do away with depressions, before the American Association for the Advancement of Science, meeting in New York.

It would be issued in the form of currency, like the paper money now in use, and would end depressions because it would always purchase approximately the same amount of goods, said Dr. John Pease Norton, economist.

The "electric dollar" would be valued in terms of kilowatt hours, the unit by which electricity is measured, and which Dr. Norton said are the same in quality and quantity everywhere in the United States.

Boom To Bicycle Business

British Manufacturers Find Demand Is Steadily Increasing

British manufacturers of bicycles and tricycles report a boom in their business comparable to that in the wheel-and-rod '90s. One manufacturer says that fifteen months ago he and others in that industry were faced with ruin. Of a sudden the cycle boom appeared and within three months they were employing 50 per cent more wheelmen than at any other period during the last twenty years.

Bicycle riders in England are considered something of a nuisance on the road, as motorists find it difficult to dodge them. The same condition was in existence in England up to last year, but there has been a steady fall off in the use of automobiles due to the high British taxes on all vehicles. So now the wheelmen are coming back in great numbers.

Salvaging Dutch Liner

Bellevue Goin In Vessel Torpedoed In North Sea

Next among the sunken ships to be explored for treasure is the Dutch liner "Tubantia," which was torpedoed in the North Sea in 1917. There has been considerable mystery regarding the cargo which was being carrying when she went to the bottom, but it is believed she had a large sum of gold which was being sent from Germany to the United States for financing war propaganda. The gold, it was stated, amounted to nearly \$5,000,000 and was supposed to be hidden in Dutch cheese. Salvage efforts in 1925 had to be abandoned, but the success of the "Artiglio" in recovering the gold of the "Egyp" suggests that a second attempt to get the "Tubantia" treasure may be fruitful.

London historians have found that the city's first library was housed in a Croydon monastery, which was burned down nearly 1,000 years ago.

Icebergs have been known to take as long as 200 years to melt. The use of live decoys for duck hunting is illegal in Alberta.

Java's New Currency

Merchants Accept Cigarette Coupons In Payment For Anything

They're using cigarette coupons for money in Java. A full year ago, "greenbacks" and "yellowbacks" will buy anything from soap to nuts and you have Carl H. Boehringer's word for it. Coupons are being used as tender to buy beads, clothing, phonograph records and even motor cars.

Boehringer, who is Assistant Trade Commissioner at Batavia, in calling the Department of Commerce at Washington about Java's financial problems didn't say how many coupons will produce a bill of sale for an automobile, but hinted that business in this "paper" is so active that various enterprising individuals are now carrying on a brokerage business in them.

Pity the poor Javanese—shells are getting fewer and fewer. For some time past, said Boehringer, actual money among the natives has become increasingly scarce and during the last year harvest laborers were paid not in money but in kind.

Cigarette coupons came into the monetary picture when various domestic producers began active competition and each issued coupons redeemable for various articles. With the coupons almost impossible to get native through necessity, embarked on a new currency programme, swapping, buying and selling, and gambling for this new "money."

Need for real money has not diminished, despite the fact that the situation is aggravated by the fact that the opportunity for getting the large estates is being reduced while wages are being consistently scaled downward. Natives, although receiving less money, found no diminution in the need for it, as land taxes, back debts and purchase of fertilizer had to be maintained.

Recipes For This Week

(By Betty Barclay)

MOCHA COOKIES

1 cup shortening.
1 cup sugar.
1 cup molasses.
1/2 cup coffee.
4 1/2 cups flour.
2 eggs.
1 teaspoon soda.
3 teaspoons cinnamon.
1 1/2 teaspoons ginger.
1 teaspoon ground cloves.
1 teaspoon salt.

Cream shortening and sugar. Add well beaten eggs, and coffee mixed with soda and molasses. Sift all spices with flour and add to mixture, making a soft dough. Drop on cookie pan, a tablespoonful for each cookie.

CONNECTICUT STEW

1 1/2 pounds fresh, lean pork.
1 1/2 cups salt water.
3 cups diced parsley.
1 tablespoon finely chopped parsley.
1 cup sliced onion.
2 tablespoons flour.
1 teaspoon sugar.

Cut the pork into small pieces. Brown in a frying pan. Add the water and simmer until the meat is nearly tender. Add the vegetables and seasonings, cook for fifteen or twenty minutes. Mix the flour with a small quantity of cold water. Add to the meat and vegetables. Cook until thickened. Sprinkle parley on top of stew before sending to the table.

On Wheat Committee

Prof. Allen O. Saskatchewan University Asked To Assist With Problems

Professor Allen O. Saskatchewan University has been asked to assist Premier J. T. M. Anderson to accept a place on the wheat problems committee. The professor's value at the recent inter-provincial conference in Winnipeg.

Premiers of the prairie provinces are members of the committee. So is Professor H. C. Grant, of the University of Manitoba. The latter will attend the Clinefelter conference at Regina, the place at which the United States to limit production will be discussed.

Real-Estate Agent—"Well what do you think of our little city?" "It's a fine place," replied the brother. "This is the first cemetery I ever saw with lights!"

Cocaine the pernicious drug, is obtained from a low-growing shrub the vivid green leaves of which are gathered and dried in the sun, just as tea leaves are.

EGGS GAVE HER INDIGESTION

"When this woman of 72 years found a remedy for her indigestion, it proved to be one that 70-year-old brother was already using to keep him a perfect picture of health," she writes.

"For years I had suffered with indigestion, and simply could not eat an egg. I was told to eat eggs regularly, but still I suffered. I began this year taking a small dose of Scrupin's Food. I can eat eggs and potatoes and enjoy them without trouble."

"My brother is a perfect picture of health, and a splendid advertisement for Scrupin's Food. He is always bright and happy. He never forgets the morning dose—neither do I, now that I know the value of it. My brother is 70 years of age, and I am 72 years. We have reason to bless these valuable salts. I recommend them to all my friends." (Mrs.) M.E.M.

The six salts in Scrupin's Food stimulate and tone up the bodily functions from a number of different angles. Your course of treatment will bring about the immediate benefit. You forget indigestion, headaches and depression is a new feeling of physical and mental exhilaration.

Soviet State Farms Not Delivering Grain Have Fallen Down Badly In Poverty

The state farms, to which Soviet government loans not only to furnish approximately one-seventh of its grain needs, but also to act as an example for collective and individual peasants, were pictured as having fallen down badly in their deliveries of grain to the state.

Acknowledging that this branch of agriculture had fulfilled only 77.8 per cent of the collections assessed against it, the government has completed December 15, the newly-created commissariat for grain and cattle breeding state farms issued stringent orders for immediate improvement in the situation, which it described as "shameful."

It condemned those farms in Siberia, Eastern Russia, Western Siberia and the Urals as most backward, directing attention to the fact that the Black Sea region, the worst showing was with only 56 per cent of the collections completed.

Placing responsibility directly on the shoulders of the individual directors of the state farms, the orders threatened them with arrest and trial unless effective measures are taken to complete collections forthwith.

American Farmers In Bad Way About Forty Per Cent Of Farm Lands Under Mortgage

Approximately 40 per cent of the farm lands in the United States are under mortgage.

This was the estimate of Eric Englund, assistant chief of the Bureau of Agricultural Economics, to the House appropriations sub-committee.

This hearing was the agricultural department supply bill. About five per cent of these farms, Englund said, have mortgage debt in excess of their value. The total per cent. debt from 75 to 100 per cent of their value and 21 per cent. debt from 50 to 75 per cent.

Manitoba Gold Area

American Mining Engineer Impressed With Richness Of Gold Lake

God's Lake gold-country is bigger than anything in the United States. This is the statement of K. H. Harding, mining engineer of Minneapolis, who has spent more than a month in locating properties 300 air miles north of the Red River.

"I have spent 20 years going over gold properties in the west and east, but I never saw anything as big as God's Lake. The size and extent of the formation, plus the high gold values in what is apparently uninteresting stuff, offers great possibilities," said Mr. Harding.

Real-Estate Agent—"Well what do you think of our little city?" "It's a fine place," replied the brother. "This is the first cemetery I ever saw with lights!"

Cocaine the pernicious drug, is obtained from a low-growing shrub the vivid green leaves of which are gathered and dried in the sun, just as tea leaves are.

HANDWARE
Arrowwood Alberta

The type used consists of a
face specially designed for di-
rectory work and while slightly
smaller than that hit herto use
in directories will be found to
be very clear and distinct.

At the head of each page will
appear the first and last name
on the page, which will be of
considerable assistance in find-
ing a name quickly.

The Schedule of Rates for
Service, Terms, and Conditions,
instructions as to use of tele-
phone, Long Distance Rates and
other useful information will
appear at the front of the di-
rectory in condensed form and
will repay a study by our
subscribers.

The list of Apartments,
Blocks and Buildings on pink
paper will be placed at the
front of the directory immedi-
ately following the Addenda
and the Classified Section will
be printed on yellow paper in
conformity with the practice
followed by most Telephone
Systems on this continent.

No advertisements will ap-
pear on the front cover of the
directory, but advertising space
will be available on the other
three pages of the cover.

The innovation mentioned
will result in the Calgary direc-
tory consisting of about half the
number of pages used in the
present directory, but having
about twice the number of
names on a page thus rendering
the finding of a listing a more
expedient process than at
present, while the Lethbridge
and Medicine Hat directories
will also be slightly reduced in
bulk.

Although they have had no
complaints as to the present
arrangement of the directories
provision has to be made for
the future development of the
System and the adoption of the
most up-to-date style of tele-
phone directory in our province
is in consonance with the policy
of progress which has always
been the watchword of the
system.

Canoe Trips in Canada

(Continued from page 1)

amid the constant change of beauti-
ful scenery.

Fish and Game in Abundance

Canadian lakes and rivers are
renowned for the variety and
abundance of their fish. Brook
and lake trout are numerous, the latter
often weighing from fifteen to thirty
pounds while other species of fish
are plentiful. Eastern Canada is
well provided with waterways, well
suited to travel by canoe. Canal
systems, rivers large and small,
lakes, falls, lakes, streams and
all the requirements for an enjoyable
canoe trip are available to the
public. Whether it be a cruise
through a well settled region, or an
adventurous journey through the
wilderness, the canoeist will find an
almost unlimited number of lakes
and streams.

The waterways of western Canada,
in days gone by, assisted materially
in unravelling the mystery of the
great country between Lake Superior
and the Pacific Ocean. Radiating
from like Winnipeg, are routes of
romantic interest. Nestling among
the mountains of the coast are many
lovely lakes, also streams that
wind through the hills, where sport
for the angler and hunter may be
found.

Free Information

The National Development Bureau
of the Department of the Interior
at Ottawa, has prepared a series of
four booklets entitled "Canoe Trips",
copies of which may be had by our
readers free of charge. The series
covers the Maritime Provinces, Que-
bec, Ontario and Western Canada.
Further detailed information is avail-
able to those who require specific
data on any particular trip.

Here and There

Popularity of Canadian apples
abroad has notably increased, and
last year apple exports to Europe
from western Canada reached a
new high record of 1,774,000
boxes, as compared with 566,000
boxes in 1930. Fruit growers are
anticipating an even larger crop
this year.

R. V. Dunlap, formerly Travel-
ling Passenger Agent, Canadian
Pacific Railway, Winnipeg, was
appointed District Passenger
Agent, Algoma District, North
Bay, Ont., effective August 16th.
Mr. Dunlap has had a long and
successful career with the Com-
pany, and is now receiving con-
gratulations on his most recent
promotion.

Numbers of anglers returning
through Ottawa and Montreal re-
port having experienced exceed-
ingly good bass fishing. This
was the expression of a group
from Cincinnati, Ohio, who recent-
ly visited the bass fishing waters
of the Gatineau River, north of
Montreal, according to A. O. Sey-
mour, General Tourist Agent, Cana-
dian Pacific Railway.

This is evidently the peak year
with partridge, one would judge
from the reports emanating from
various parts of the Laurentian
and Gatineau districts of Quebec,
according to O. Seymour, Gen-
eral Tourist Agent, Canadian Pa-
cific Railway. In almost every
locality partridge, as the ruffed
grouse and Franklin grouse are
best known, are very plentiful.
Most flocks hatched this year are
nearly full grown.

New freight rates on live stock
with low minimum weights to
meet the competition of motor
trucks to the transportation of
animals to market have been put
into effect by the Canadian Pa-
cific and Canadian National Rail-
ways covering movement from
stations within a radius of 100
miles of Toronto, and these were
effective from August 15. The
new rates are being tried out as
an experiment, and it is expected
they will result in a very substantial
increase in the rail movement
of cattle, sheep, and hogs.

One of the most interesting
passengers arriving in Montreal
from the Pacific Coast was the
Duchess of Richmond on August 13
was "Miss England III", the
world's fastest motorboat. After
the international races with Gar-
wood's boat at Detroit, King's-
ton, she will take "Miss England III"
to Toronto where holders of the
Canadian National Exhibition will
be able to see an attempt by the
powerful vessel to lower her own
or any other new world's record.
The big speed boat was accom-
panied by U. S. Grand Marshal
Thibault, and "mate" to Kaye Don
during the races.

WAGIN' TUNG

Vol. 2, No. 20 Arrowwood, Jan. 5 1933 Items for Thought

We Are for the Hockey Teams

The Mossleigh Hockey team demonstrated its
ability to cope with the best teams in this district when
they defeated the fast Bassano team, on our ice by a
score of 2 to nil. The Arrowwood team is fast round-
ing into form and should give a good account of them-
selves before the end of the season and these two teams
should have the united support of all lovers of this
popular sport.

Don't forget—when you
have motor troubles to call
on Tommy Thompson to
have them remedied,
whether they are mechani-
cal or electrical Tommy
can fix them for you.

of all kinds, What have
you to dispose of or need.
Let us know your wants
and we may be able to help
you out. It may be some-
thing sell as well buy.

How about your tractor
magneto. Now is the
time to bring them in and
have them checked over
before the spring rush is
on. We will check over
your magneto and clean it
for a very nominal charge.
